

BVDzero CONGRESS

National BVD Survey 2019

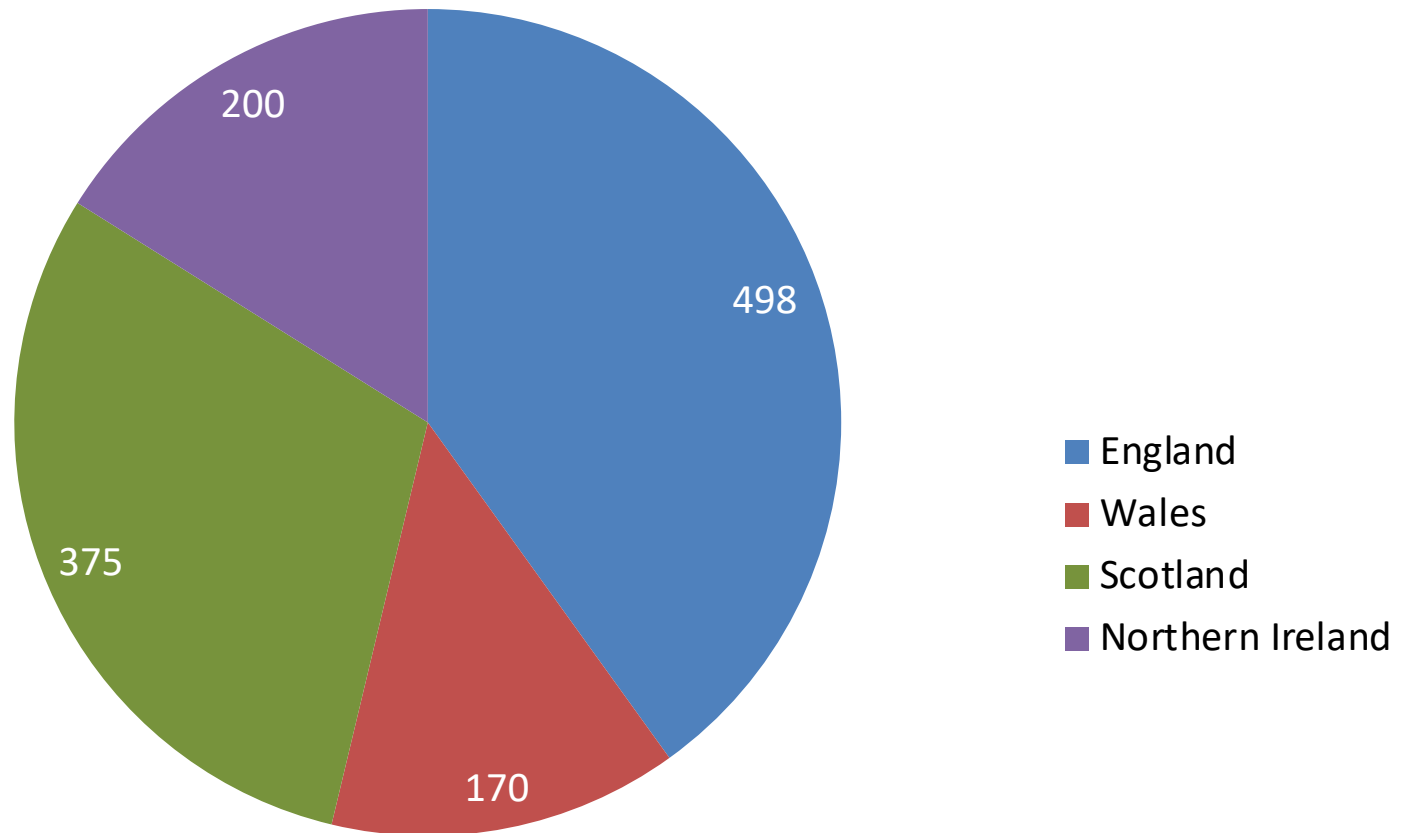

BVD
zero

SUPPORTER

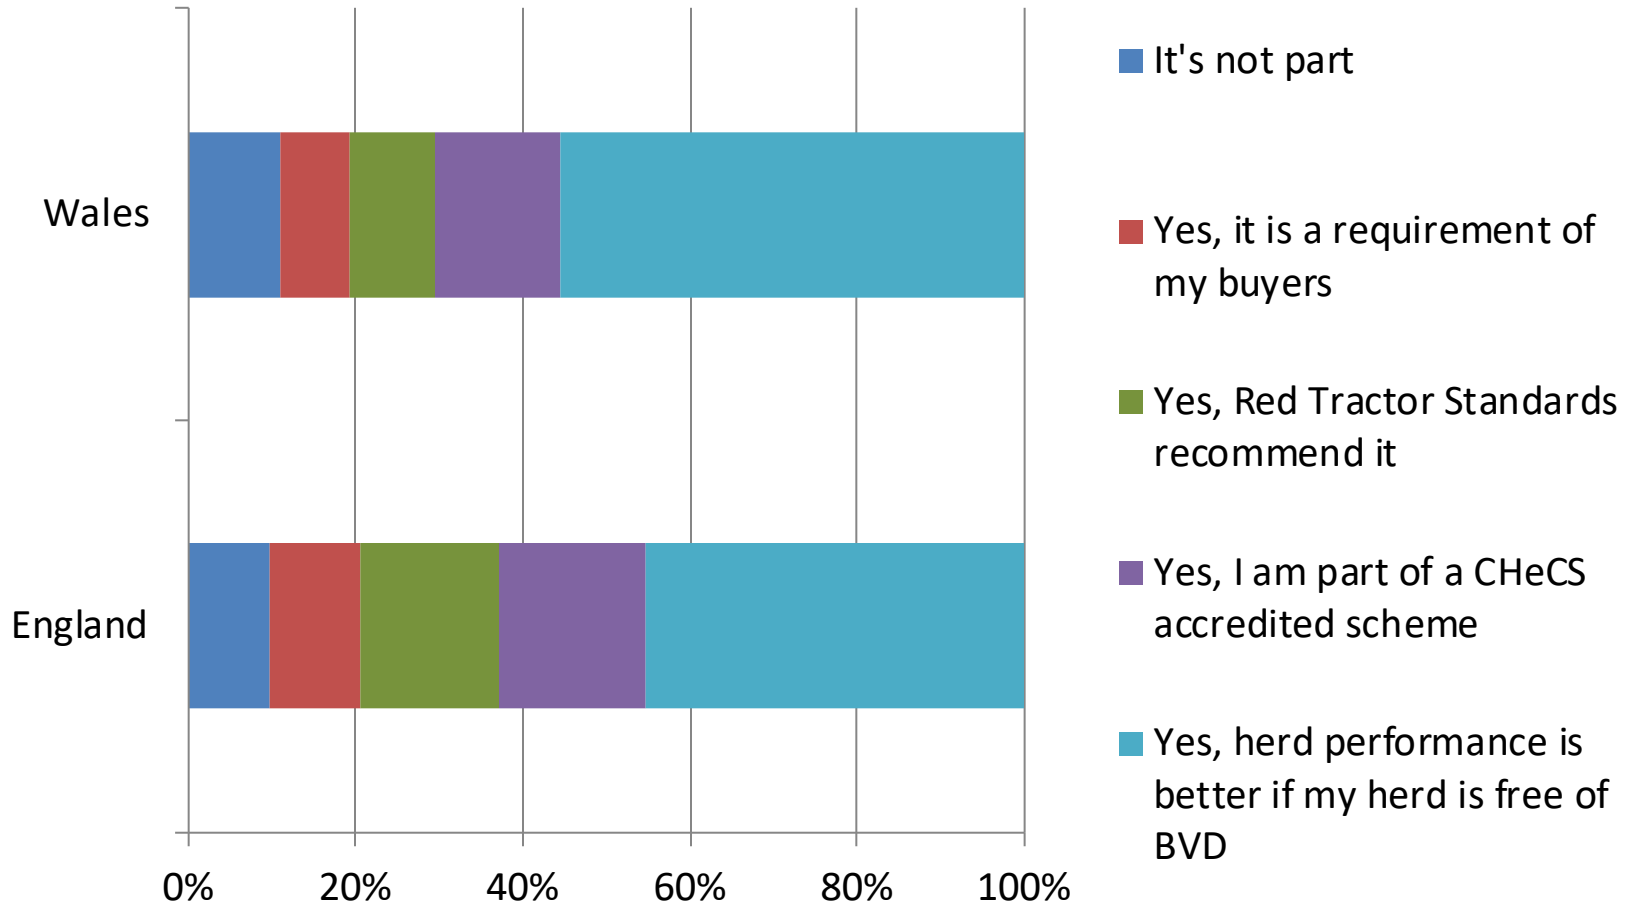

Number of respondents from different regions of the UK

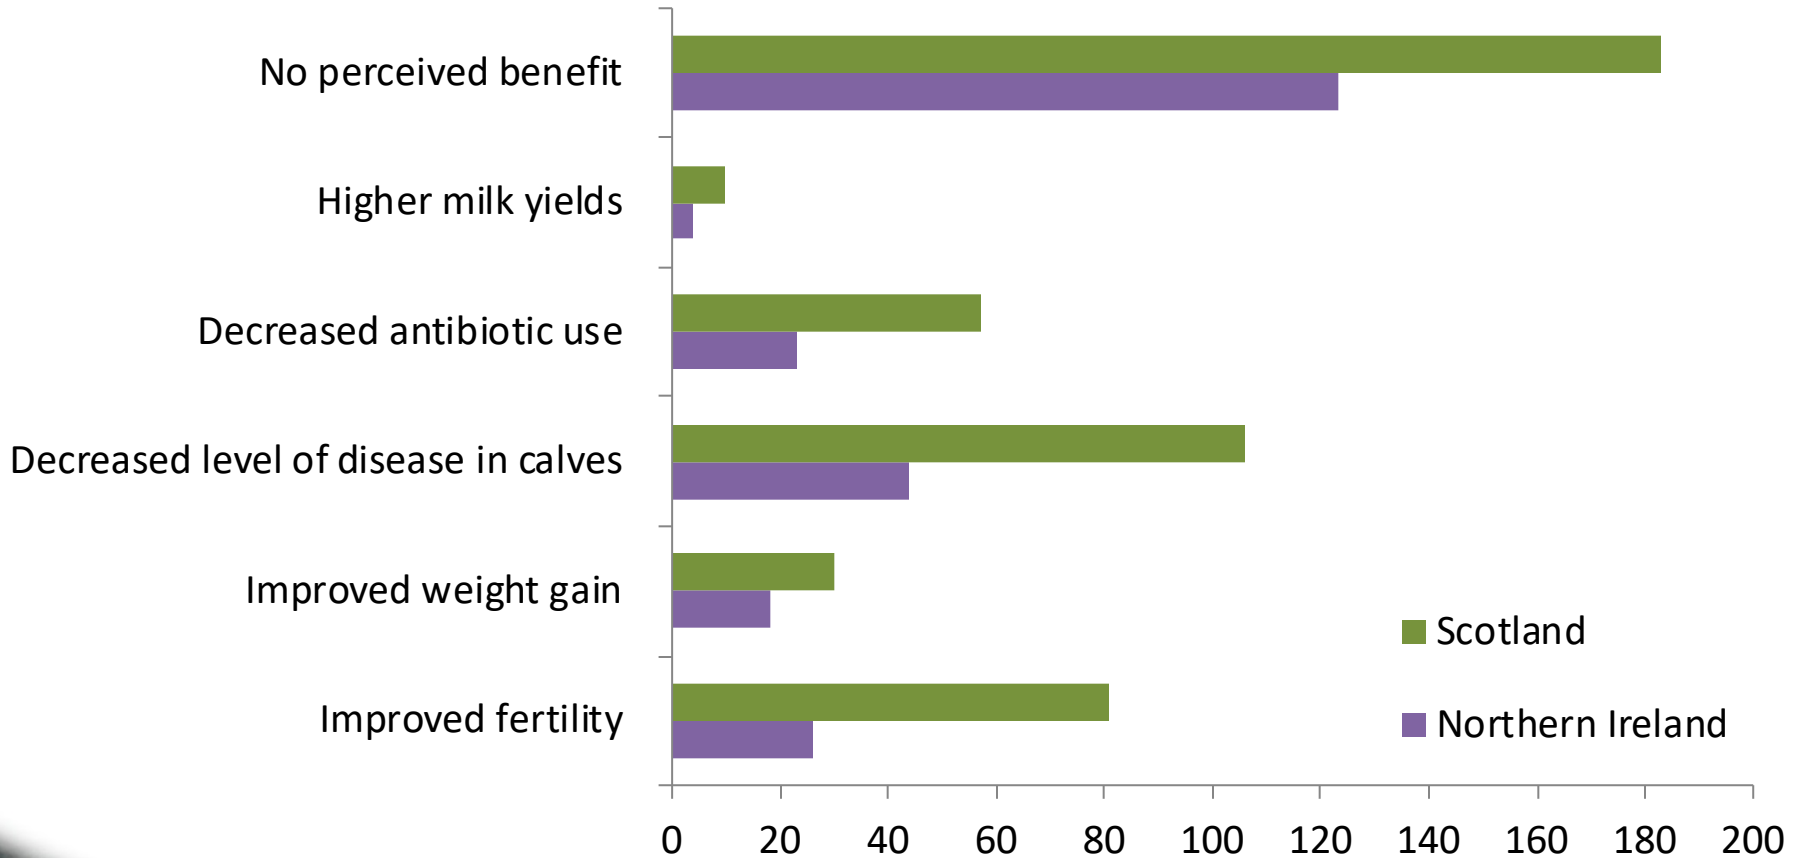

Motivators

Is BVD control a part of your herd health plan?
If yes, what is the main reason for including it?

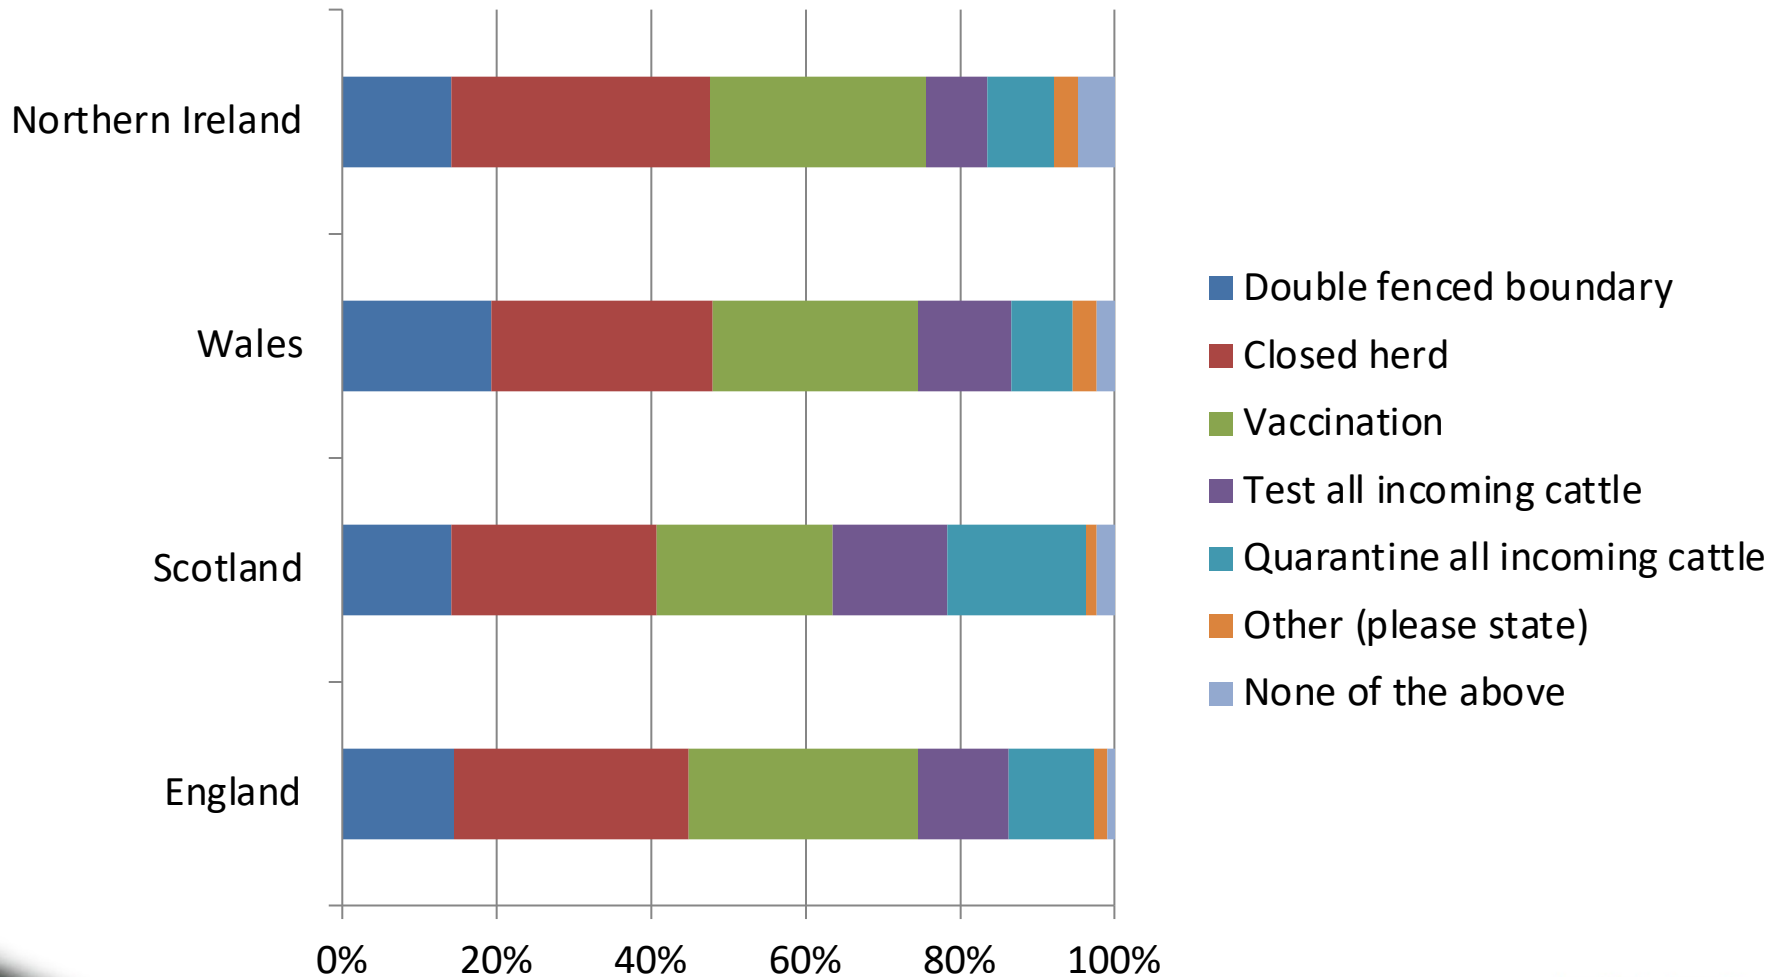

Benefits of eradication

Have you seen an improvement in herd health since engaging with the BVD eradication programme? If so, what?

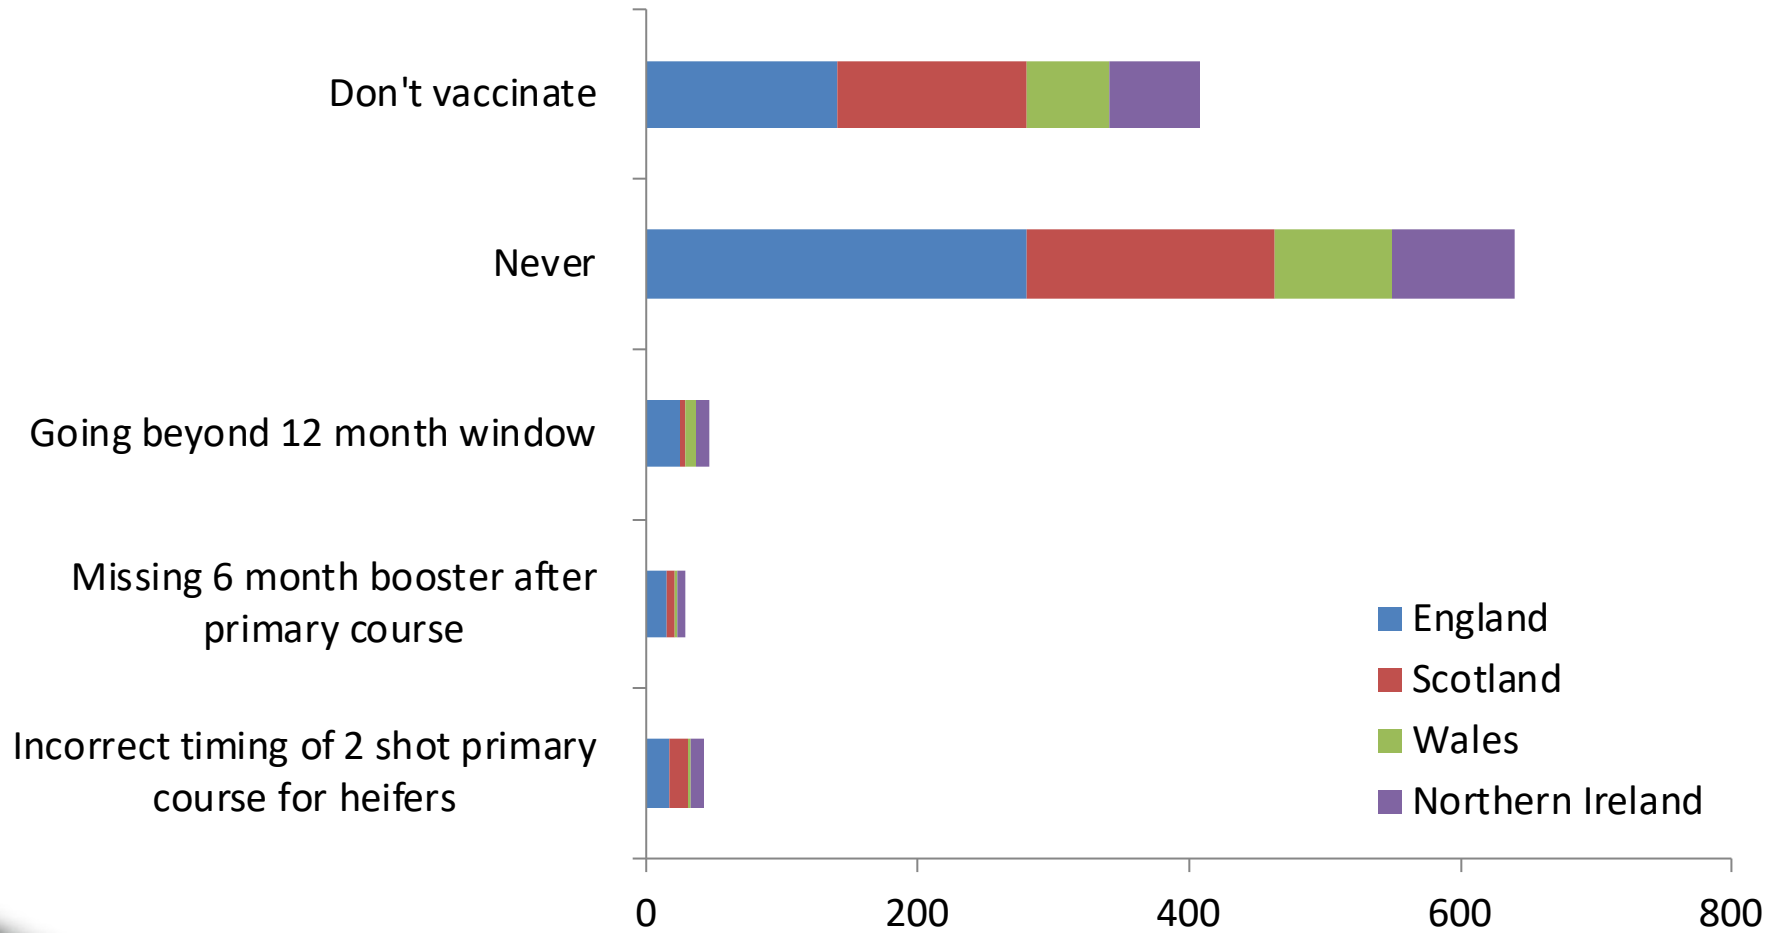

Biosecurity

What BVD biosecurity measures do you have in place already?

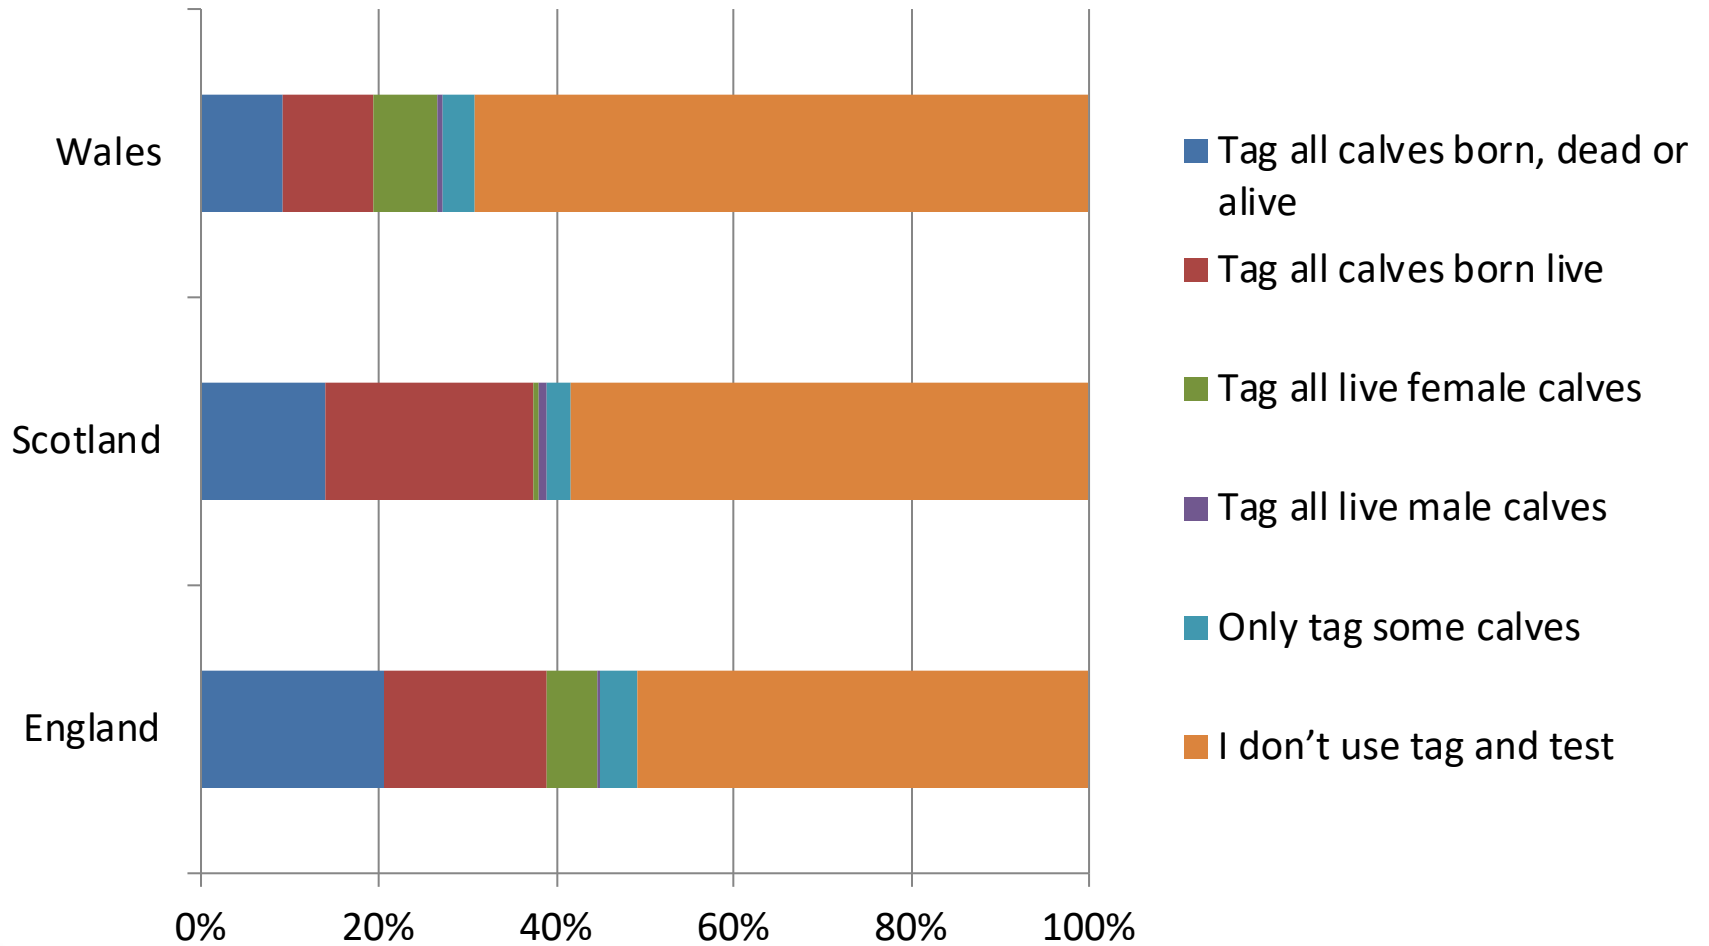

Vaccination

Have you had to restart a vaccination course because of timing issues?

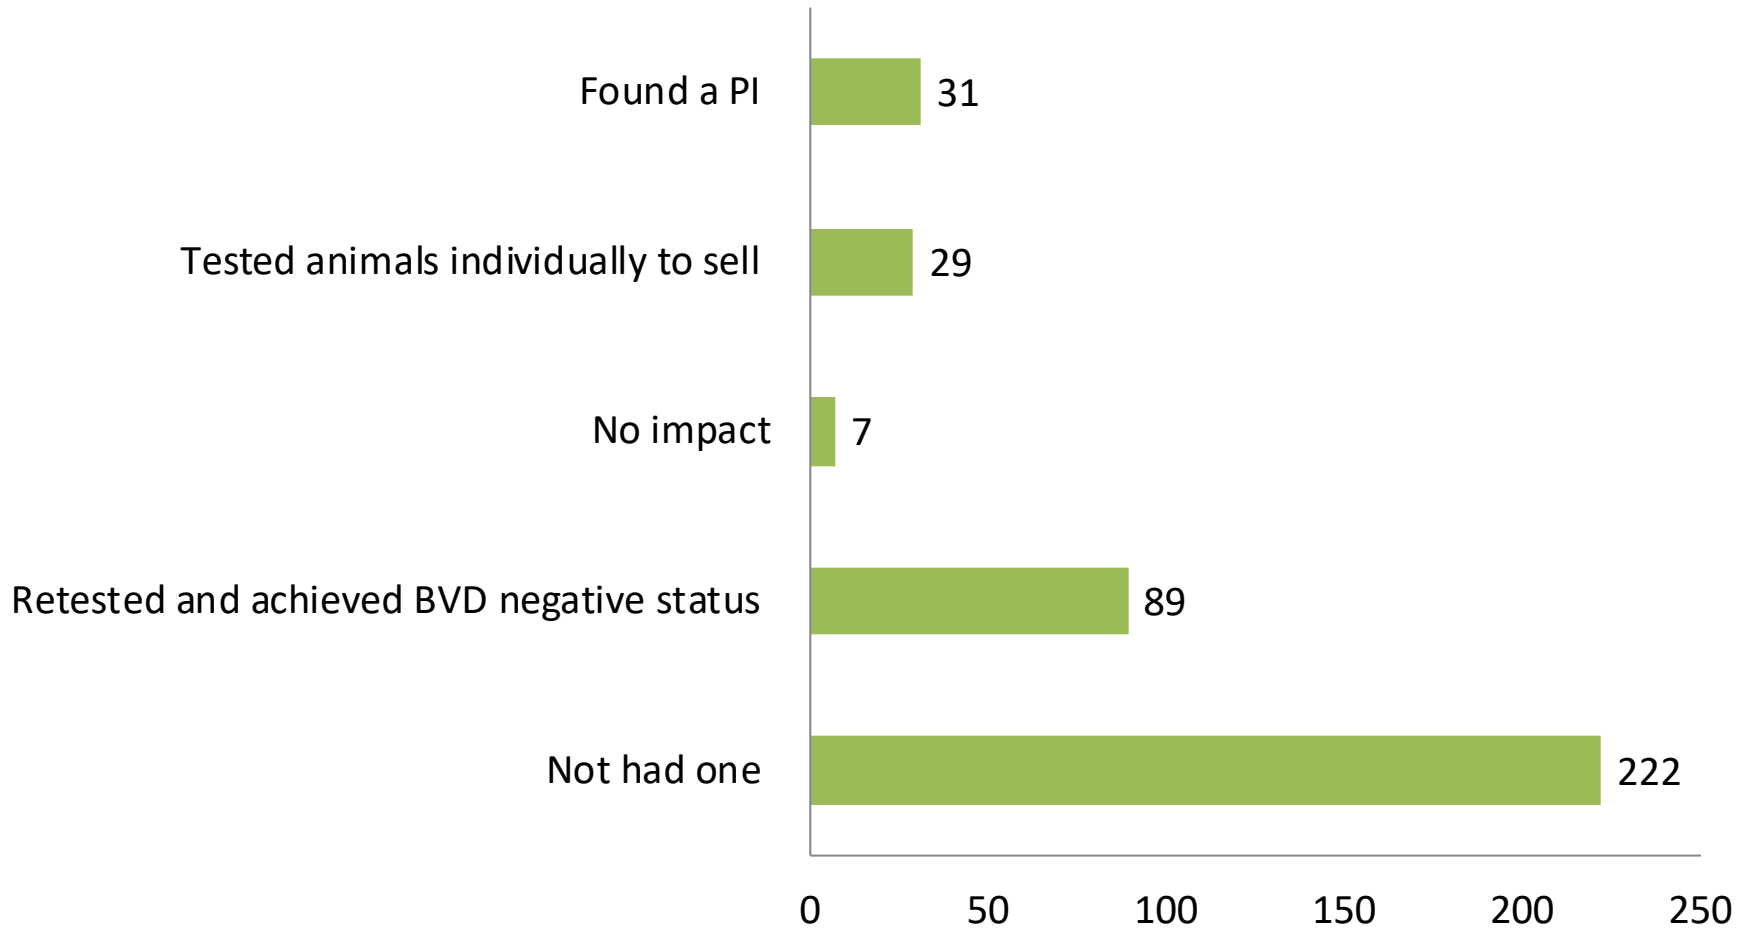

Tag testing

Have you used ear tag testing, and if so which animals are tested?

Surveillance (Scotland)

Have you had a not-negative BVD test result, if so what was the impact?

Surveillance (Wales)

Results presented at BCVA Congress, Oct 2018

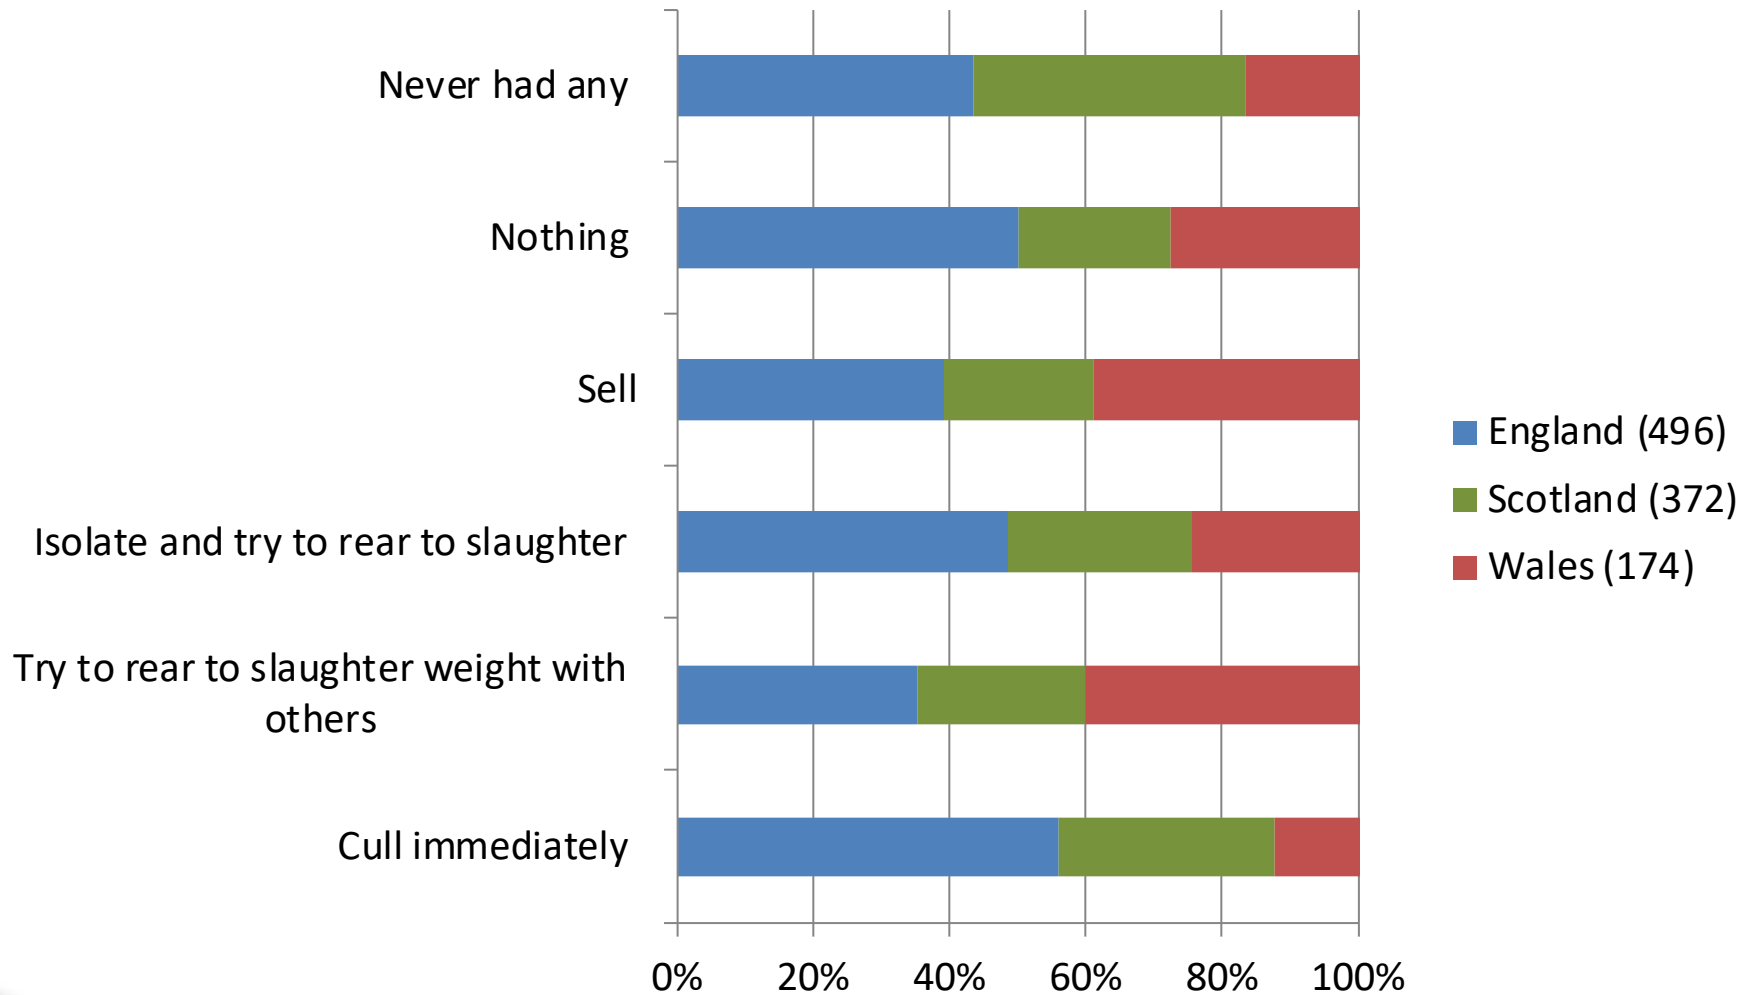

Number of <u>youngstock</u> positive	Number of management groups	Percentage of management groups
0	4290	73.2%
1	523	8.9%
2	266	4.5%
3	173	3.0%
4	207	3.5%
5	396	6.8%
6	5	0.1%

Retest Trial	
No of farms	14
No of farms going negative	6
Farms staying 1 positive	3
Farms increasing seroconversion	5

The fate of PIs

What do you do with identified PI animals?

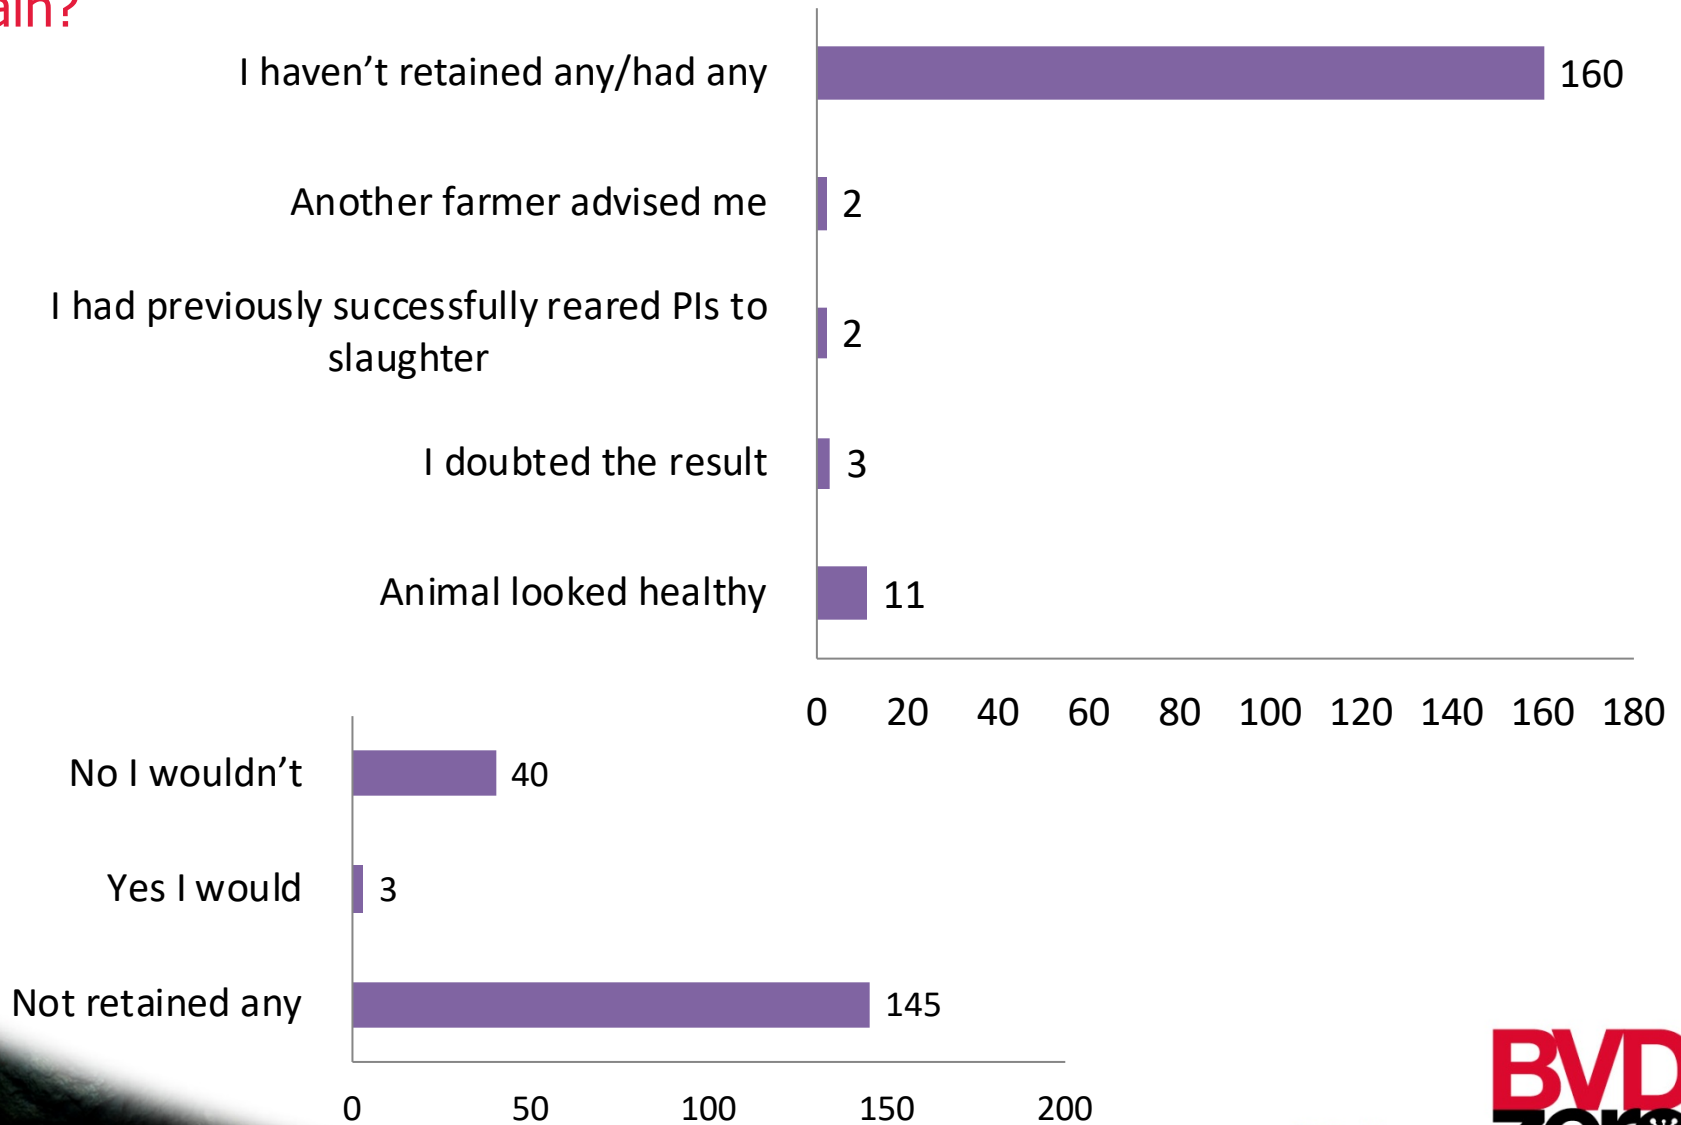

PI retention (Northern Ireland)

Have you ever knowingly retained a PI animal? If yes, what was the outcome?

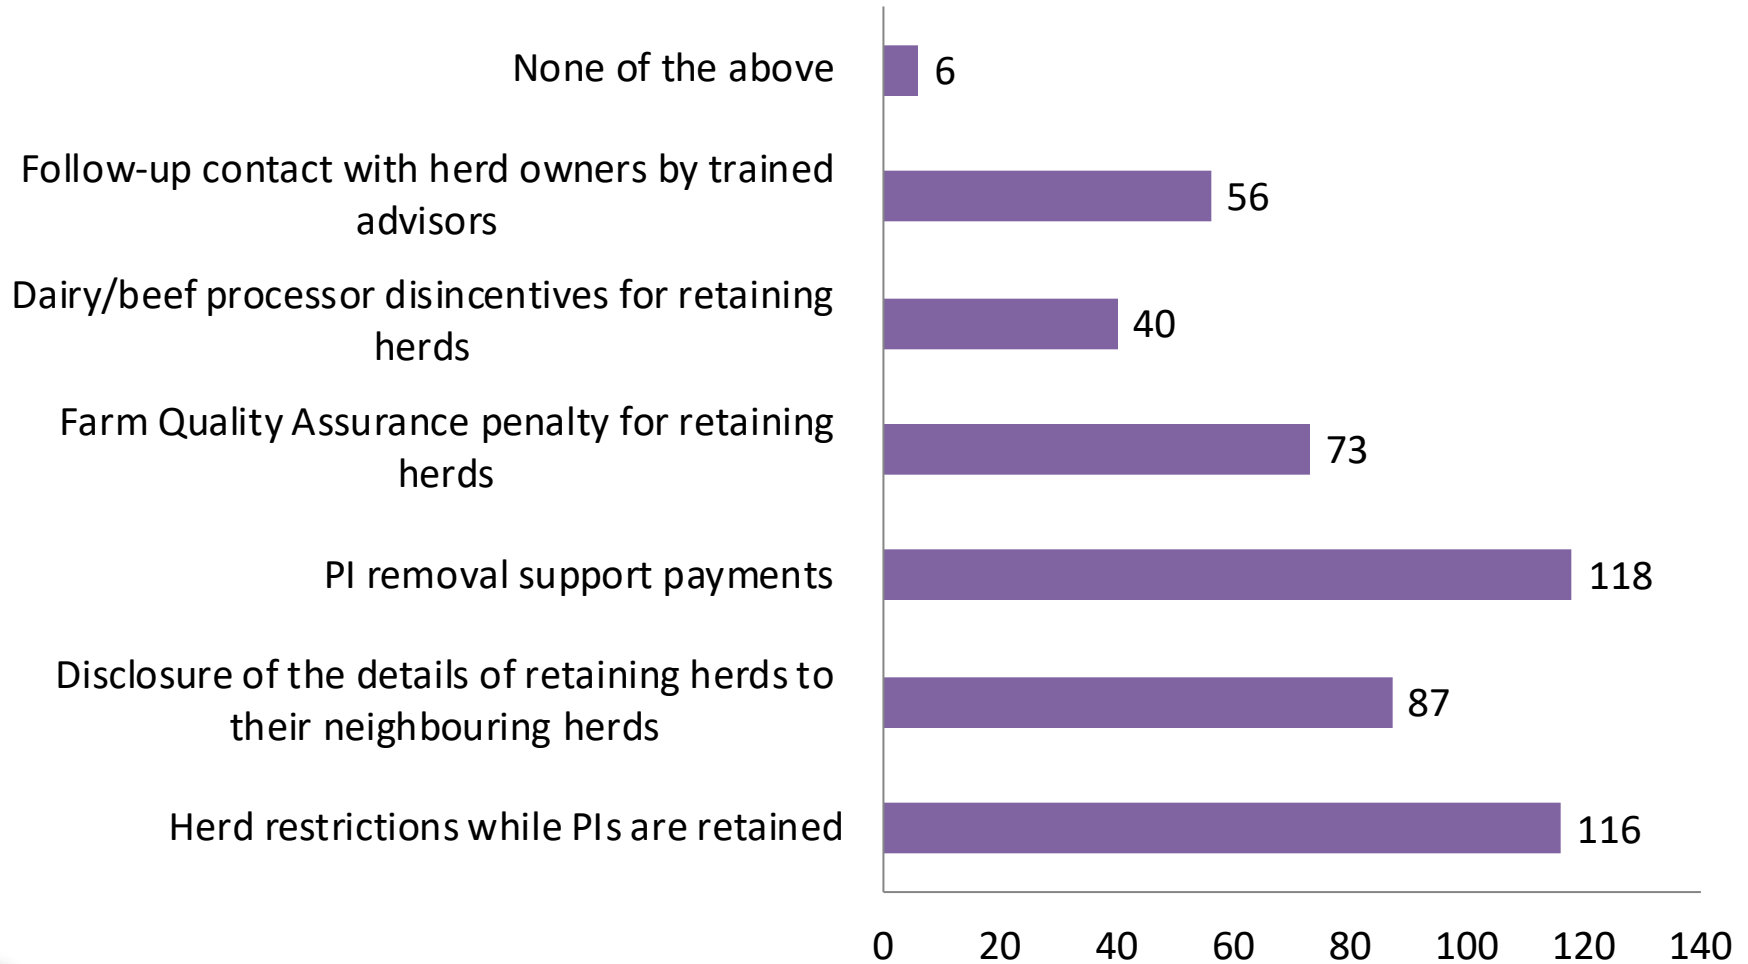

PI retention (Northern Ireland)

If you retained PI animals did you do so because... and would you do so again?

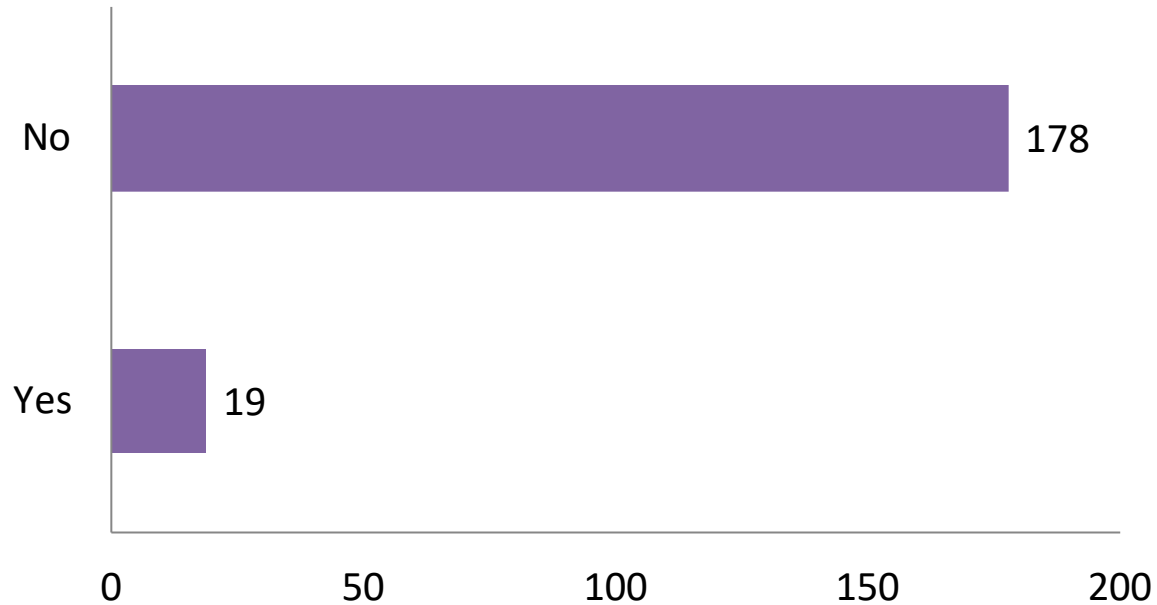

PI retention (Northern Ireland)

What measures do you think should be used to encourage the disposal of PIs?

Trojan PIs (Northern Ireland)

Have you purchased any pregnant cattle in the past 12 months?
